

A NEW WAY TO KEEP OUR WORLD COOL

CUSTOM MADE
FROM 250 PIECES

BottleBag Cool

Meet our newest series from the BottleBag family, the BottleBag Cool. These are coolbags made of 100% recycled PET and PEVA lining, so they do not only keep your drinks but also the world cool. These bags are durable due to the sturdy 600d rPET exterior and heavy quality zipper. The PEVA foam lining keeps your drinks cool for hours. The BottleBag Cool series can be produced in 17 stock colors from 250 pieces. There is room to express your message or logo at multiple printing positions. You can also get your message across on the customizable patch, which is made from recycled yarn. The kraft hangtag and woven label can also be custom made. Besides that you can choose the full color sublimation option to completely catch the eye.

Are you participating in a Cool image
that also combats global warming?

KEEPS YOUR DRINKS COOL
